

EDVARDAS BALTRUNAS

Full Stack Web Engineer. Laravel / Vue.js / Tailwind / MySQL / AWS

INTRODUCTION

As an experienced web developer since 2011, I specialize in designing and creating custom web applications. In addition to excelling at independent work, I am also a valuable team player who can tackle challenging tasks with ease and deliver high-quality results. With just a hint of a problem, I can promptly investigate and implement innovative solutions. Trust me to bring your ideas to life and craft a top-notch product.

EXPERIENCE

Software Engineer • ClosingLock, Inc • Feb 2022 – Apr 2023

Development and maintenance of ClosingLock.com, the top wire fraud prevention software for real estate. I rewrote the entire app from jQuery/Bootstrap/Webpack to Vue.js/Tailwind/Vite, built UI/UX from Figma, and integrated Plaid and Modern Treasury with thorough testing. I also rebuilt Feature tests with Cypress and Dusk.

Senior Web Engineer • Coronatest.de • Nov 2021 – Jun 2022

I helped develop and maintain Coronatest.de, a top web app for Covid-19 testing across 50+ German locations. I provided tech support to franchises not just in Germany but also abroad, ensuring smooth operations and customer experiences, showcasing my expertise in delivering quality, user-friendly software.

Senior PHP DevOps Engineer • iAgentur AG • Feb 2020 – Oct 2021

I supported the backend and cloud ops for Switzerland's top media group, a high-profile client that demanded excellence. I used my expertise to ensure their operations ran smoothly, providing world-class media services.

Senior Software Engineer • hellotax • Apr 2018 – Sep 2020

I helped develop hellotax®, a product that automates VAT tasks for online sellers expanding to Europe. With its advanced features and user-friendly design, hellotax® simplifies VAT compliance. I'm proud to have been part of the team that built this game-changing product.

EDUCATION

Bachelor • 2011 – 2015 • Vilnius University

Bachelor's Degree in Computer Science
